

Robocall Mitigation Statement

RavitrON, Inc. is committed to combating illegal robocalls and ensuring a secure and trustworthy communication experience for all users. To achieve this, we have implemented the following measures as part of our Robocall Mitigation Plan:

1. **STIR/SHAKEN Caller ID Authentication:** We have adopted the STIR/SHAKEN framework to verify the authenticity of caller IDs on our network, reducing the risk of spoofed calls.
2. **Traffic Monitoring and Analysis:** Our systems actively monitor call traffic patterns to identify and block suspicious or unauthorized activity, ensuring compliance with FCC regulations.
3. **Collaboration with Authorities:** We work closely with the Federal Communications Commission (FCC) and other regulatory bodies to stay updated on best practices and ensure adherence to all legal requirements.
4. **Customer Education:** We provide resources and guidance to our customers to help them recognize and report potential robocalls, empowering them to protect themselves.
5. **Robocall Mitigation Database Certification:** We have registered with the FCC's Robocall Mitigation Database and certified our compliance with the required standards.

Through these efforts, RavitrON, Inc. remains dedicated to protecting our customers and maintaining the integrity of our communication services.
