

EASEDIAL LLC

Robocall Mitigation Plan

(47 CFR § 64.6300–64.6305 Compliance)

1. Company Information

Legal Name: EASEDIAL LLC

Jurisdiction: Delaware, United States

Registered Address:

8 The Green, Suite R
Dover, Delaware 19901
United States

Website: www.easydial.com

Contact Email: info@easydial.com

Authorized Officer:

Mohammed Asifa
President

Plan Date: 20 February 2026

2. FCC Registration Information

FRN: 0037653011

FCC Form 499 Filer ID: 838308

Robocall Mitigation Database ID: RMD0031225

3. Provider Classification

EASEDIAL LLC is a **U.S. intermediate and wholesale voice service provider** in accordance with 47 CFR § 64.6300.

EASEDIAL LLC:

- Does not originate robocall campaigns
- Does not originate autodialed traffic

- Does not assign numbering resources to subscribers
- Does not knowingly transmit illegal robocalls

4. Traffic Scope and Role

EASEDIAL LLC receives voice traffic from:

- Authorized U.S. carrier partners
- Approved international wholesale carriers
- Verified enterprise customers

and transmits such traffic to downstream carriers or terminating networks.

EASEDIAL LLC functions solely as an **intermediate carrier** and does not serve as the originating voice service provider for customer calls.

5. Prior Regulatory Actions Disclosure

During the preceding two (2) years, EASEDIAL LLC has not been subject to:

- FCC enforcement actions
- Robocall investigations
- Caller ID spoofing violations
- Regulatory citations related to robocall mitigation

EASEDIAL LLC will update its FCC Robocall Mitigation Database filing within ten (10) business days of any such action in accordance with 47 CFR § 64.6305.

6. Network Monitoring and Traffic Analytics

EASEDIAL LLC maintains continuous monitoring of signaling and traffic patterns associated with U.S.-transiting calls.

Monitoring capabilities include:

- Anomalous call pattern detection
- Spoofed or invalid Caller ID identification
- Burst traffic detection
- Robocall indicator analytics
- Automated alerting and investigation workflows

Suspicious traffic may be blocked, rate-limited, or suspended pending investigation.

7. Customer and Upstream Controls

7.1 Carrier Partner Restrictions

EASEDIAL LLC exchanges traffic only with carriers and enterprise customers that maintain lawful telecommunications operations. High-risk robocall traffic sources are prohibited.

7.2 Caller ID Validation

EASEDIAL LLC requires upstream carriers to transmit only authorized Caller IDs. Signaling is monitored for spoofed, invalid, or unauthorized numbering.

7.3 Do-Not-Originate (DNO) Protection

EASEDIAL LLC blocks calls using numbers listed on the FCC Do-Not-Originate registry and other known invalid, spoofed, unallocated, government, or emergency numbering ranges.

7.4 Know-Your-Customer / Know-Your-Upstream

All carrier and enterprise partners undergo verification including:

- Legal entity validation
- Regulatory and business verification
- Service profile assessment
- Robocall risk screening

Non-compliant partners are rejected or terminated.

8. Upstream Provider Compliance

EASEDIAL LLC receives traffic from domestic and international carriers.

Upstream partners are required to:

- Maintain robocall mitigation programs
- Prohibit illegal robocalls and spoofing
- Comply with FCC requirements
- Cooperate with traceback requests

EASEDIAL LLC periodically reviews upstream traffic patterns and may suspend or block non-compliant sources.

9. Traceback Cooperation

EASEDIAL LLC fully cooperates with traceback requests from:

- U.S. carriers
- USTelecom Industry Traceback Group (ITG)
- Regulatory authorities

The company commits to:

- Responding within 24 hours where possible
- Providing call detail records and routing data
- Identifying upstream sources
- Suspending or terminating violators

EASEDIAL LLC retains call detail and partner authentication records for a minimum of two (2) years.

10. STIR/SHAKEN Treatment

EASEDIAL LLC does not originate calls and therefore does not assign STIR/SHAKEN attestation levels.

Where STIR/SHAKEN authentication is present, EASEDIAL LLC relies on the attestation issued by the originating provider and verifies the received identity headers.

For traffic lacking STIR/SHAKEN authentication, EASEDIAL LLC applies:

- Enhanced monitoring
- Caller ID validation
- DNO blocking
- Traceback enforcement

consistent with FCC robocall mitigation obligations for intermediate providers.

11. Continuous Mitigation Improvement

EASEDIAL LLC continuously enhances its robocall mitigation controls through:

- Traffic trend analysis
- Robocall indicator updates
- Partner audits
- Industry cooperation
- Regulatory monitoring

12. Compliance and Update Commitment

EASEDIAL LLC commits to:

- Maintaining accurate FCC Robocall Mitigation Database filings
- Updating this RMP within ten (10) business days of material changes
- Annual FCC RMD recertification by March 1

in accordance with 47 CFR § 64.6305.

13. Officer Certification

I, Mohammed Asifa, President of EASEDIAL LLC, certify under penalty of perjury that the information contained in this Robocall Mitigation Plan and in the FCC Robocall Mitigation Database filing is true, accurate, and complete to the best of my knowledge.

EASEDIAL LLC has implemented reasonable and effective measures to mitigate illegal robocall traffic in accordance with 47 CFR § 64.6300–64.6305 and fulfills its obligations as an intermediate voice service provider.
