

Robocall Mitigation Program WYNTON LLC

WYNTON LLC
13950 SW 160th TER
Miami, FL 33177
United States

Contact: hello@curbe.io

Overview:

WYNTON LLC provides VoIP-based voice services to small and medium-sized businesses within the United States. WYNTON LLC fully implements the STIR/SHAKEN authentication framework across all originated calls through its upstream carriers and enforces compliance across its network.

Robocall Mitigation:

WYNTON LLC performs Know Your Customer (KYC) verification before onboarding any client, including identity validation and business use-case review. WYNTON LLC monitors outbound traffic patterns for anomalies, such as high-volume short-duration calls, invalid numbering, or suspicious peak patterns. All traffic violating policies is immediately investigated and may result in suspension.

STIR/SHAKEN:

All originated calls are authenticated using STIR/SHAKEN as required by 47 CFR § 64.6301(a)(1) and (2). WYNTON LLC ensures compliance through certified upstream carriers.

Traceback Cooperation:

WYNTON LLC responds to traceback requests from the FCC, law enforcement, and the Industry Traceback Group within 24 hours.

Enforcement:

If any customer is found transmitting illegal robocalls, WYNTON LLC suspends service immediately pending further investigation.

Officer Certification:

I certify that WYNTON LLC maintains an active robocall mitigation program in compliance with FCC rules.

Signed:

Yanisleidys Guerra Lazo
Officer, WYNTON LLC
