

Robocall Mitigation Program Description

Company Name: Ringzy

FCC Registration Number (FRN): 0037710654

Employer Identification Number (EIN): 412584694

1. Company Overview

Ringzy is a communications technology company that provides voice-related services using FCC-authorized upstream U.S. telecommunications carriers. Ringzy is committed to preventing illegal robocalls and maintaining full compliance with all applicable FCC robocall mitigation requirements.

2. STIR/SHAKEN Implementation Status

Ringzy does not directly operate or control public switched telephone network (PSTN) infrastructure. All outbound voice traffic is transmitted through upstream FCC-authorized carriers that have fully implemented STIR/SHAKEN authentication.

3. Robocall Mitigation Measures

Ringzy employs comprehensive robocall mitigation measures, including continuous monitoring of calling patterns, enforcement of acceptable use policies, customer vetting procedures, immediate suspension or termination of non-compliant customers, and cooperation with upstream carriers to prevent illegal robocalls.

4. Response to Traceback Requests

Ringzy commits to responding promptly and fully to all traceback requests from the FCC, law enforcement agencies, and authorized industry traceback groups.

5. Ongoing Compliance

Ringzy regularly reviews, updates, and enhances its robocall mitigation program to ensure ongoing compliance with FCC rules and industry best practices.

I certify under penalty of perjury that the information contained in this Robocall Mitigation Program Description is true and accurate to the best of my knowledge.
