Robocall Mitigation Program Description

Motion Source is a non-facilities-based VoIP reseller utilizing CoreDial/SkySwitch for PSTN interconnection and call authentication services. Motion Source certifies under FCC Robocall Mitigation Database Option 3 (No STIR/SHAKEN Implementation) and maintains a robocall mitigation program consistent with 47 CFR § 64.6305(a).

1. Company Commitment

Motion Source is committed to preventing illegal robocalls, spoofing, and fraudulent calling activity.

2. Know Your Customer (KYC) Procedures

Motion Source performs customer onboarding and vetting procedures including verification of customer business identity, physical address, and contact information. Terms of service prohibit unlawful robocalls, spoofing, and fraudulent calling.

3. Call Monitoring and Traffic Analysis

Motion Source actively monitors calling activity, including detection of anomalous high-volume calling patterns and coordination with CoreDial/SkySwitch monitoring tools where applicable.

4. Mitigation and Enforcement Actions

If illegal or suspicious traffic is detected, Motion Source will immediately investigate and suspend associated numbers or accounts. Persistent offenders will have service permanently terminated.

5. STIR/SHAKEN Status

Motion Source does not implement STIR/SHAKEN authentication on its own network and relies on CoreDial/SkySwitch for call signing and authentication where applicable.

6. Traceback Cooperation

Motion Source cooperates fully with the FCC, law enforcement, and the industry traceback consortium and commits to responding within 24 hours to traceback requests.

7. Ongoing Compliance and Review

This mitigation program is reviewed annually and updated as required. Motion Source maintains accurate Robocall Mitigation Database certifications and updates filings promptly.

Date: February 1, 2026

Responsible Officer Certification

I certify that the above Robocall Mitigation Program is accurate and maintained in compliance with FCC requirements.
