

ROBOCALL MITIGATION PROGRAM DESCRIPTION

Filer: GotYourBack Technologies LTD **FRN:** 0037977758 **Date:** February 4, 2026

1. Introduction: GotYourBack Technologies LTD is a foreign voice service provider. This program describes our procedures to prevent the origination of illegal robocalls.

2. Know Your Customer (KYC): We maintain strict internal controls. We do not resell our voice services to third-party providers or telemarketers. All traffic is originated by our company for legitimate business communications to end customers with active subscriptions. Our communications are service-related, including but not limited to incoming and outgoing calls, sms. We do send reminders to some active subscription users to utilize service on a monthly basis.

3. Robocall Mitigation Techniques:

- **Monitoring:** We use the Wavix platform tools to monitor outbound call patterns, including call duration and frequency.
- **Investigation:** Any suspicious traffic patterns are flagged and investigated internally.
- **Traceback Cooperation:** We commit to responding to any traceback requests from the FCC, law enforcement, or the Industry Traceback Group within 24 hours.

4. STIR/SHAKEN Implementation: As a foreign provider without a technical presence in the U.S. network, we do not have a STIR/SHAKEN implementation obligation. We rely on our upstream provider, Wavix, for call authentication.

5. Compliance: We strictly adhere to the rules set forth in 47 CFR § 64.6305.
