

Compugeeks, Inc.

ROBOCALL MITIGATION PLAN

Compugeeks, Inc is committed to cooperating with the Federal Communications Commission (FCC) in preventing and mitigating illegal robocalls. This report describes the status and specific measures that the company has implemented to prevent and mitigate robocalls.

Know Your Customer

The company follows a meticulous procedure on getting to know clients, especially during onboarding. As new clients are onboarded, we adhere to a comprehensive procedure to familiarize ourselves with them. This process includes conducting background checks, credit assessments, and manual verification procedures.

Traceback Requests

The company commits to fully cooperate with FCC and the law enforcement within 24 hours to all traceback requests in the event of investigating and stopping illegal robocallers from using the company's services.

Compugeeks, Inc has an underlying provider from which it receives voice traffic:

Name: IoTran Corporation

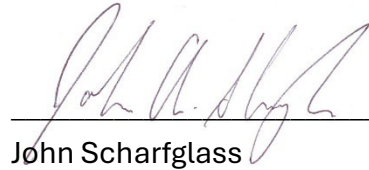

Address: 909 Ridgebrook Road, Suite 120, Sparks, MD 21152

Contact Number: (202) 747-0064

Email: support@iotran.com

The underlying provider complies with the Commission's STIR/SHAKEN standards and robocall mitigation regulations in all aspects when delivering voice traffic. The company, in collaboration with its provider, works diligently to prevent illegal robocalls, ensuring strict adherence to regulatory requirements. Additionally, the company and its provider cooperate fully in response to traceback requests, assisting authorities in identifying and addressing sources of fraudulent calls.

The Company reserves the right to refuse traffic from any party at any time where robocalling or use of originating numbers that are not valid or they are not authorized to use has occurred or is suspected. The Company is able to block the originating number(s), terminating numbers(s), trunk(s) or customer, including termination of customer relationship to prevent robocalling, invalid originating number or spoofed origination number transiting the Company's networks.
