

LinQuix LLC ROBOCALL MITIGATION PLAN

Below is the Robocall Mitigation Plan filing for LinQuix LLC This plan will be submitted to the FCC's Robocall Mitigation Database and will be adapted to adjust to the latest laws, regulations, and industry best practices.

LinQuix LLC has monitoring and reporting systems in place to analyze high-volume voice network traffic to identify and monitor patterns consistent with robocalls. Our monitoring systems provide alerts on calling patterns with unusual spikes, traffic patterns, or attempted use of non-validated Telephone Number (TN) to detect patterns consistent with illegal robocalls.

Pursuant to 47 C.F.R. § 64.6305 LinQuix LLC submits this report on its implementation of the STIR/SHAKEN call authentication framework and its plan to prevent and mitigate illegal robocalls. This report describes the status of its implementation of STIR/SHAKEN and the practices and procedures LinQuix LLC has in place to mitigate illegal robocalls as of August 24, 2025. LinQuix LLC may modify, add, delete or otherwise alter any of the policies and procedures described in the plan at any time to respond to changes in its business, its capabilities and its needs.

LinQuix LLC accepts pre tokenized calls. Furthermore, LinQuix LLC is a Voice Service provider for our retail traffic only. We attest all retail traffic that is being dialed through our network with a A attestation if they use our DIDs, a B if they use others DIDs and can show us a bill and the numbers they are using, and a C attestation if they don't provide us with DIDs or a order form but they are all using our PD system or our PI system. Since we manage their campaigns and know what traffic they are sending. We make sure they are on our platforms otherwise we dont sign random clients traffic at all. Only using our platforms. They are identified by their company name and filling out our kyc. Then we make sure they send us proof they own the DIDs if they dont buy DIDs from us and provide proof we sign with a B otherwise if no proof we sign with a C. We dont sign any traffic coming from outside our software. All traffic that we sign are from our software only others that are sending us traffic we make sure they sign their own traffic. We also monitor the traffic in our software by Sip Shield fromTelucom (SS) on our software that monitors in real time messages that are being uploaded into our software or monitors calls that are being made in real time as well. If we catch anything with (SS) the account gets locked down and wont get activated again until one of two people on management cks the violation and either let them back on or terminate immediately. 1 violation of uploading scam or fraud traffic is immediately blocked forever but if its a message or a call that saying calling from a company that specializes on apr reduction to credit cards and it gets blocked then sip shield has a feature that will change their script for them to making it tcpa compliant and compliant for fee as well. Once more, our C attestation is only for clients that are using our software that dont provide us with proof the DIDs they are using are from a DID carrier.

LinQuix LLC is judiciously working to prevent unlawful robocalls from originating on its network while we have implemented the new STIR/SHAKEN authentication architecture. LinQuix LLC ensures rigorous compliance with the STIR/SHAKEN standards and the Pallone Thune Telecom Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act. The Company has implemented the following robocall mitigation plan to address unlawful robocall traffic.

LinQuix LLC also implemented Voice Shield and Roboguard through fraudcentral.io, SipShield through Telucom and Smart Shield through Veriswitch to monitor our traffic. We also have implemented valid ani on all of our traffic to prevent any spoofing.

informed of the upstream providers "Know-Your-Customer" guidelines and have provided them with the necessary KYC documentation they've requested that we complete.

LinQuix LLC follows the caller ID authentication best practices for vetting caller identity and operational legitimacy for new and existing customers.

This process includes the collection and review of entity-identifying information to confirm that LinQuix LLC has an authenticated relationship with the customer. The Company uses this authenticated information to determine whether the customer is subject to any enforcement actions that restrict the type of calling that they may do, for example, if they have been banned from initiating telemarketing calls.

LinQuix LLC also validates, when possible, that the entity has a legitimate right to use its asserted calling numbers. The Company uses this information to support the attestation level it assigns to calls that it originates for that customer.

LinQuix LLC contractual provisions with customers prohibit them from initiating illegal robocalls. If the Company discovers a customer is initiating suspicious robocalls, it warns them to stop. If such traffic continues, then the Company terminates their service.

LinQuix LLC requires that upstream providers have a reasonable Robocall Mitigation Plan, including a vetting process for their customers as well as their upstream providers, and that they use call analytics to identify suspicious traffic.

Prior to installing services for new customers, LinQuix LLC takes the following measures to weed out end users that could potentially generate robocall traffic: Our Know-Your-Customer (KYC) confirms the following about its customers:

- Customer's identity
- Customer's right to use the telephone number presented on calls
- Service Address
- Authenticated legal campaigns and compliance
- 499 Filer ID
- Robocall Mitigation Plan and RMD #
- FEIN Number
- Customers Tokens

LinQuix LLC's contract explicitly prohibits the initiation of illegal robocalls, with immediate termination for non-compliance.

When the customer is a business, LinQuix LLC requires Business Incorporation Documents and verifies they have a reputation as a valid business that abides by the law.

LinQuix LLC will immediately investigate any identified suspicious calls to determine if the caller or upstream provider was attempting to originate or transit unlawful robocalls. If the Company determines that the traffic was likely unlawful, then we warn them to stop sending such traffic. If they continue to send traffic that appears to be unlawful, then we terminate their service.

LinQuix LLC will comply fully with all conditions set forth in the FCC'S 2024 Report and Order Mandating the implementation of the STIR/SHAKEN framework, as well as with the Commission's rules and policies more generally.

LinQuix LLC has designated an individual as a dedicated point of contact for addressing traceback requests. It either has provided the ITG with the contact information and business hours for those individuals, or will do so upon receipt of the first request from the ITG. LinQuix LLC will respond promptly to inquiries from the Industry Traceback Group (ITG) within 24 hours.

If LinQuix LLC detects a pattern consistent with illegal robocalls, or we have reason to suspect illegal robocalling or spoofing is taking place over our network, we will seek to identify the party that is using our network to originate, route, or terminate these calls. And take appropriate action.

Appropriate action will

- Suspend and/or terminate client

LinQuix LLC will provide valid law enforcement and regulatory agencies with the relevant nonproprietary information in response to reasonable and legitimate requests about illegal robocalls and suspicious activities, and implement mandated Robocall Mitigation procedures to the fullest extent possible with the goal of maximizing the mitigation of illegal robocalls. We respond within 24 hours to all traceback requests from the Commission, law Enforcement, and the registered traceback consortium. We cooperate fully with such entities in investigating and stopping any illegal robocallers that use the Company's service to originate, carry, or process illegal robocalls.

LinQuix LLC performs the same mitigation steps for all outbound calls regardless of our role in the call chain for a particular call. LinQuix LLC has not had any agency action or investigation due to suspected unlawful robocalling or investigations.
