

1. Company Overview

GLOBAL NEXUS TECHNOS LLC is a Voice Service Provider offering wholesale and retail VoIP telecommunications services. The company originates voice traffic to U.S. PSTN networks and serves end-users.

2. STIR/SHAKEN Implementation Status

GLOBAL NEXUS TECHNOS LLC has partially implemented the STIR/SHAKEN authentication framework on a portion of its network.

The company relies on upstream carriers that have implemented STIR/SHAKEN for downstream call authentication.

All calls originated on the network are subject to the company's robocall mitigation program consistent with 47 CFR § 64.6305.

3. Robocall Mitigation Program

The company has implemented the following mitigation measures:

A. Customer Vetting (KYC)

- Verification of customer identity
- Business registration verification (if applicable)
- Collection of valid identification
- Written service agreements prohibiting illegal robocalling and spoofing

B. Traffic Monitoring

- Continuous monitoring of outbound call traffic
- Analysis of ASR, ACD, and call duration metrics

- Monitoring for abnormal traffic spikes or short-duration call patterns
- CLI validation procedures

C. Enforcement Actions

- Immediate investigation of suspicious traffic
- Suspension or termination of customers engaged in illegal robocalling
- Blocking of suspicious call traffic when necessary

D. Traceback Cooperation

GLOBAL NEXUS TECHNOS LLC commits to:

- Respond fully within 24 hours to traceback requests
- Cooperate with the FCC, law enforcement agencies, and the industry traceback consortium
- Take corrective action when illegal robocalling is identified

4. Ongoing Compliance

The company continuously monitors regulatory developments and will implement full STIR/SHAKEN authentication across its network when technically and commercially feasible.
