

Robocall Mitigation Program Description

Biztech International LLC is a VoIP service provider that resells and delivers voice services to small businesses' end users through an upstream provider, SkySwitch.

Role in the Call Chain: Biztech International LLC acts as a wholesale VoIP provider originating calls and serving end users.

STIR/SHAKEN Implementation: The company relies on upstream carriers SkySwitch for STIR/SHAKEN call authentication and therefore maintains a partial STIR/SHAKEN implementation in accordance with 47 CFR §64.6305(a).

Robocall Mitigation Measures: The company implements reasonable steps to prevent the origination of illegal robocall traffic, including customer vetting, acceptable use policies, traffic monitoring, and prompt investigation of suspicious activity.

Traceback Cooperation: The Company commits to responding fully and within 48 hours to traceback requests from the FCC, law enforcement, and industry traceback groups.

Enforcement History: The company has not been the subject of any FCC or law enforcement action related to illegal robocalls or spoofing within the last 5 years.
