

Robocall Mitigation Compliance with TRACED Act

Mytech Partners, a managed services provider and voice service reseller (the "Company"), submits this robocall mitigation certification and attached Robocall Mitigation Plan pursuant to Section 64.6305 of the FCC's rules.

STIR/SHAKEN

The Company resells VoIP services from SkySwitch / CoreDial, LLC as a white-label solution. As such, the Company relies on SkySwitch / CoreDial, LLC's full implementation of the STIR/SHAKEN authentication framework. All calls originating through the Company's resold services are compliant with Sections 64.6301(a)(1) and (2) of the Commission's rules, pursuant to SkySwitch / CoreDial, LLC's implementation.

TRACEBACK

The Company commits to cooperating with the Commission, law enforcement, and the industry traceback consortium in investigating and stopping any robocallers that use our service to originate unlawful robocalls. The Company may need to work with SkySwitch / CoreDial, LLC for traceback requests from the Commission, law enforcement, and the industry traceback consortium, but will respond fully within 24 hours and cooperate with such entities in investigating and stopping any robocallers that use our service to carry, process, or originate robocalls.

ENFORCEMENT

All voice traffic that originates through our resold services is subject to the attached Robocall Mitigation Plan. The Company has never been the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with accompanying findings of actual or suspected wrongdoing due to transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program. The Company has not been prohibited by the Commission from filing in the Robocall Mitigation Database. The Company also has not been the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with accompanying findings of actual or suspected wrongdoing due to the filing entity transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program description

MITIGATION PROGRAM

As detailed below, the Company has taken specific reasonable steps to avoid the origination, carrying, or processing of illegal robocall traffic. All voice traffic that originates through our resold services is subject to the below Robocall Mitigation Plan.

The Company resells VoIP services from SkySwitch / CoreDial, LLC as a white-label solution for clients. Responsibilities for network-level monitoring, such as identification of suspicious traffic patterns, implementation of anti-spoofing tools, and internal data analytics to detect and investigate irregular and unexpected calling patterns, are deferred to SkySwitch / CoreDial, LLC and its systems, as these functions occur outside of client network environments managed by the Company.

The Company's clients tend to be small businesses who utilize voice services for legitimate business purposes.

The Company's Know Your Customer (KYC) requirements and processes include, but are not limited to:

- Limiting a customer's capacity via concurrent session limits and/or restrictions on international calling;
- Vetting all new clients with a combination of electronic and manual verification systems, possibly including credit reviews, references from trusted industry members and/or existing clients, and previous experiences with customer executives and employees. The Company aggressively limits the capabilities of new clients until these processes are complete.

The Company examines the identity of its clients prior to entering into any contract to provide service. The Company does not onboard a client if it is unable to verify the client's identification. This verification process includes confirmation of business names and addresses, EIN confirmation, confirmation of client in secretary of state databases, and website verifications. The Company's clients are expected to comply with federal and state robocall mitigation and anti-spoofing laws.

The Company relies on SkySwitch / CoreDial, LLC as its upstream provider. The Company will confirm that its upstream provider is appropriately listed in the FCC's Robocall Mitigation Database and has not been delisted pursuant to an enforcement action. The Company works with its clients to provide information concerning efforts to reduce illegal calls. The Company also regularly reviews any changes in processes documented by SkySwitch / CoreDial, LLC as part of our "Know-your-upstream provider" procedures.

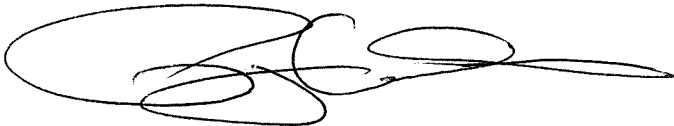

The Company's service agreements contain acceptable use and traffic integrity terms that prohibit the use of Company services for illegal purposes. Pursuant to our service agreements, the Company may terminate services for fraudulent use of our services, for illegal, improper or unauthorized use of services, and/or for violations of any laws, rules and regulations applicable to the use of Company services. The Company may block the originating number(s), terminating number(s), trunk(s) or client, including termination of client relationship to prevent robocalling, invalid originating number or spoofed origination number transiting the Company's resold services.

The Company will respond fully and in a timely manner to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and cooperate with such entities in investigating and stopping any robocallers that use our network to originate robocalls.

The Company reserves the right to modify and/or supplement this Robocall Mitigation Plan to adapt to risks and to improve the overall effectiveness of our program.

I, Ryan Carroll, submit this certification on behalf of the Company, as indicated in the Robocall Mitigation Database. Pursuant to section 1.16 of the FCC's rules, I certify, under penalty of perjury, that the information and statements contained herein are true and correct to the best of my knowledge and belief.
