

ExperTEERS LLC is an interconnected VoIP provider serving end-user business customers in the United States.

ExperTEERS does not function as an intermediate or gateway provider and does not pass traffic downstream to other carriers.

ExperTEERS relies on its upstream platform provider for STIR/SHAKEN call authentication and signing.

ExperTEERS maintains a written Acceptable Use Policy prohibiting illegal robocalling, spoofing, and fraudulent telecommunications traffic. Customer accounts are provisioned following identity verification procedures.

ExperTEERS monitors traffic for abnormal patterns and reserves the right to suspend or terminate services for violations of federal or state telecommunications law.

ExperTEERS complies with FCC Do-Not-Originate blocking requirements through coordination with upstream carrier partners.
