All the voice traffic that originates on our network is subject to the robocall mitigation program described below.

Robocall Mitigation Program

We are a white label reseller of Hosted VoIP Platforms supported by RingLogix, LLC and use software provided by RingLogix to monitor our outbound voice traffic in real time to prevent the origination of illegal robocalls.

Combining behavioral analytics, caller authentication and verification, our solution features:

- **Fraud Detection:** Detection of high volume robocalling, spoofing and spam call activity.

- **Subscriber Notification:** Caller ID Name override to warn subscribers of suspicious calls.
- **Call Blocking Support:** Accurate identification enabling you to block fraudulent phone calls as per the TRACED Act (2019)
- **Business Number Verification:** Register legitimate business numbers to prevent unintentional call blocking.
- **Caller ID Name Service:** Easy integration of Caller ID name lookup service, including robocall mitigation with override to include original caller ID even when call is determined fraudulent.

In addition, we have implemented a Call Abuse Policy and have published the following policy to our web site, terms of use, and have notified our customers of the policy as copied below:

“Any call originated on the Off The Hook Communications, LLC network is subject to inspection and investigation if the call is suspected of being fraudulent, abusive, or illegal. Calls meeting any of these criteria will be blocked. If these conditions are repeated, becoming excessive, the subscriber may be disconnected from the Off The Hook Communications, LLC network, may be subject to further investigation by the FCC for enforcement of the TRACED Act and the subscriber may be subject to fines and penalties imposed by the FCC or the jurisdictional court.”
