

2555 Orange Avenue Suite 104 #2481 Orlando, FL32801

(209) 493 - 1599

Pursuant to 47 C.F.R. § 64.6305 Optimal Projects Limited Liability Company, submits this report on its implementation of the STIR/SHAKEN call authentication framework and its plan to prevent and mitigate illegal robocalls. This report describes the status of its implementation of STIR/SHAKEN and the practices and procedures Optimal Projects Limited Liability Company. (hereinafter also referred to as “company name abbreviation” or “the company”) has in place to mitigate illegal robocalls. The company may modify, add, delete or otherwise alter any of the policies and procedures described in the plan at any time to respond to changes in its business, its capabilities and its needs.

Optimal Projects Limited Liability Company is an not an Affiliate, subsidiary or parent company of any company. The company has not ever been sold or acquired by another company .The role the company plays in the network is Voice Service Provider (End User) on its network. Optimal Projects Limited Liability Company has an **OCN number of 667L. We are registered with iconectiv and our Certificate Authority is Peeringhub. The Officers of the company are: Chris Ball and Phillip Ware.**

Optimal Projects Limited Liability Company, is judiciously working to prevent unlawful robocalls from originating on its network and in the meantime Optimal Projects Limited Liability Company. has implemented the following robocall mitigation plan to address unlawful robocall traffic:

Optimal Projects Limited Liability Company, is judiciously working to prevent unlawful robocalls from originating on its network and has implemented the following robocall mitigation plan to address unlawful robocall traffic.

Automatic Number Identification Management: Optimal Projects Limited Liability Company shall block originating telephone numbers if identified based upon patterns of activity.

Proactive Blocking. Optimal Projects Limited Liability Company requests underlying carriers to block calls from phone numbers on Do-Not-Originate lists published by US Telecom and Neustar.

General Terms and Conditions. Optimal Projects Limited Liability Company prohibits customers from originating fraudulent calling using any fraudulent means, devices, or technologies. In fact, Optimal Projects Limited Liability Company’s end user Terms and Conditions permit Optimal Projects Limited Liability Company, without notice, to discontinue, block or suspend Services if necessary to

prevent fraud, scams, tampering, schemes, false or invalid numbers. In short, Optimal Projects Limited Liability Company shall block or suspend the service of any customers originating unlawful robocalls through Optimal Projects Limited Liability Company. Optimal Projects Limited Liability Company's RMP includes an increasing investment in resources over time to further strengthen adherence to compliance requirements by customers.

Acceptable Use Policy. Optimal Projects Limited Liability Company's Acceptable Use Policy ("AUP") also prohibits customers from utilizing the Service for any illegal, fraudulent, objectionable and/or unauthorized manner, reserving the sole and absolute right to deny, restrict or immediately suspend or terminate service if the use of the service by the 3 customer, or anyone having access to or using the service, either violates the Optimal Projects Limited Liability Company AUP or includes unlawful conduct.

Underlying Network Provider. Optimal Projects Limited Liability Company works with underlying providers and supports the benefit of deploying systems to detect potential robocall activity relying upon statistics such as average call duration, ASR, and call count carrier/consumer reports. Optimal Projects Limited Liability Company's regulatory compliance counsel confirms that Optimal Projects Limited Liability Company's underlying carriers maintain compliance with fully implemented STIR/SHAKEN protocols through the date of this RMP.

Traffic Reports and Industry Information. Reports generated by Call Detail Record and pattern trends, fraud information sharing through industry organizations, and third-party notifications and complaints, may identify potential unlawful robocalling. Although no evidence exists suggesting Optimal Projects Limited Liability Company in any way originates illegal robocall campaigns, in any instance where unlawful calling is identified, Optimal Projects Limited Liability Company maintains contractual ability to take any action it deems necessary to eliminate the fraudulent activity.

Optimal Projects Limited Liability Company has enforceable terms of use and/or an acceptable use policy noted in its contracts. These policies define the circumstances by which the company will deny, suspend, or terminate service to a customer. The company has a vetting and review process for upstream providers, that is, providers that send the company voice traffic that it terminates or transits to other providers.

Optimal Projects Limited Liability Company confirms that the upstream providers have a certification in the Robocall Mitigation Database. The company will not accept voice traffic from an unregistered provider. The Company has been informed of the upstream providers "Know-Your-Customer" guidelines and have provided them with the necessary KYC documentation they've requested that the company completes.

Optimal Projects Limited Liability Company follows the caller ID authentication best practices for vetting caller identity and operational legitimacy for new and existing customers as described by the NANC Call Authentication Trust Anchor Working Group.

This process includes the collection and review of entity-identifying information to confirm that the company has an authenticated relationship with the customer. The Company uses this authenticated information to determine whether the customer is subject to any enforcement actions that restrict the

type of calling that they may do, for example, if they have been banned from initiating telemarketing calls.

Optimal Projects Limited Liability Company also validates, when possible, that the entity has a legitimate right to use its asserted calling numbers. The Company uses this information to support the attestation level it assigns to calls that it originates for that customer.

Optimal Projects Limited Liability Company contractual provisions with customers prohibit them from initiating illegal robocalls. If the Company discovers a customer is initiating suspicious robocalls, it warns them to stop. If such traffic continues, then the Company terminates their service.

Optimal Projects Limited Liability Company requires that upstream providers have a reasonable Robocall Mitigation Plan, including a vetting process for their customers as well as their upstream providers, and that they use call analytics to identify suspicious traffic.

Prior to installing services for new customers, the company takes the following measures to weed out end users that could potentially generate robocall traffic:

The Company uses a KYCs to confirm the following information for its customers:

- Customer's identity
- Customer's right to use the telephone number presented on calls
- Service Address
- Credit History
- Authentic and Legal Campaign

When the customer is a business, Optimal Projects Limited Liability Company, also requires Business Incorporation Documents and verifies they have a reputation as a valid business that abides by the law.

Optimal Projects Limited Liability Company will comply fully with all conditions set forth in the FCC'S 2025 Report and Order mandating the implementation of the STIR/SHAKEN framework, as well as with the Commission's rules and policies more generally.

Optimal Projects Limited Liability Company has designated an individual as a dedicated point of contact for addressing traceback requests. **RMD Contact is Chris Ball and chris.ball@opl.co.uk**. It either has provided the ITG with the contact information and business hours for those individuals, or will do so upon receipt of the first request from the ITG. See <https://www.ustelecom.org/the-industry-rollback-group-itg/for-providers/>. The Company will respond promptly to inquiries from the Industry Rollback Group (ITG) within 24 hours.

If a pattern of questionable activity is detected Optimal Projects Limited Liability Company, will require its customer to remedy the problem and, if effective action is not taken, service to the customer may be suspended and/or terminated.

Requests from the ITG must be submitted in writing and include the following information:

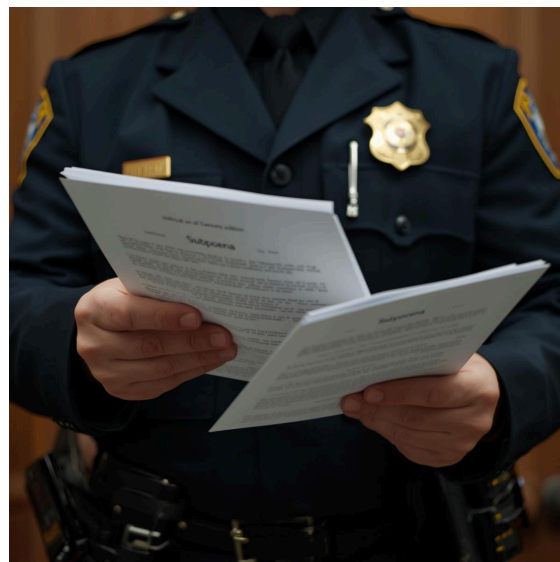

- Company Name:
- Company Address:
- Phone Number in Question:
- Requestor's Name:
- Requestor's Title:
- Requestor's phone number:
