All outbound VoIP calls to the US and Canada will originate from the following static IP address:

- VOS Server IP: 45.32.120.126

All SIP INVITE messages will include the following headers:

- From: <sip:+17606262162@45.32.120.126>
- P-Asserted-Identity: <sip:+17606262162@45.32.120.126>

These headers ensure that each call is from a valid, call-back capable number, complying with FCC robocall mitigation requirements.

- All outbound calls are routed through Voxbeam's SBC: sbc.voxbeam.com / 108.59.2.133.
- Only numbers dialed in full E.164 format are allowed.
- Calls are blocked if they do not conform to E.164 formatting.
- The following test call was performed:

- Inbound call-back to the provided From number is always possible.
- All SIP INVITE requests and responses are logged for auditing.

- All US/CA calls require FCC RMD registration to be completed.
- SIP headers are validated against whitelist IPs and verified against assigned From numbers.
- Any non-compliant or suspicious call attempts are rejected and logged.
- Regular monitoring of call logs ensures compliance with FCC regulations.
- Any regulatory actions or complaints will be reported and addressed immediately.

The filing entity has not been the subject of any formal FCC, law enforcement, or regulatory agency action related to robocalls or illegal spoofing within the past two years.

I declare, certify, verify, or state under penalty of perjury that the foregoing is true and correct.
