

Robocall Mitigation Plan (RMD) DEPTH ROUTE LLC

1. Company Information

Legal Name: DEPTH ROUTE LLC

Entity Type: Limited Liability Company (Wyoming)

EIN: 35-2950147

Principal Address: 30 N Gould St Ste R, Sheridan, WY 82801

Responsible Officer: Sheikh Shakir

Phone: 13072235754

Email: Sheikh.aks@depthroute.com

2. Business Overview

DEPTH ROUTE LLC operates as a telecommunications service provider specializing in VoIP routing, toll-free number services, and call traffic management. The company facilitates inbound and outbound call traffic for enterprise and lead generation use cases while ensuring strict adherence to regulatory compliance.

3. Network Architecture & Traffic Flow

Traffic is received from verified upstream carriers and customers, routed through secure VoIP infrastructure, and delivered to downstream carriers or endpoints.

All signaling uses SIP protocols with authentication mechanisms and IP-based access controls.

Traffic routing is optimized for latency and compliance using intelligent routing logic and monitoring systems.

4. Robocall Mitigation Framework

DEPTH ROUTE LLC has implemented the following mitigation strategies:

- Caller ID validation and spoofing prevention techniques.
- STIR/SHAKEN framework integration where supported.
- Blocking of invalid, unallocated, or suspicious numbers.
- Rate limiting and anomaly detection on traffic spikes.
- Automated fraud detection systems.

5. Customer Onboarding & KYC

All customers undergo strict verification before activation:

- Identity verification (government ID or business documents).
- Business use-case validation.
- Agreement to acceptable use policies.
- Continuous monitoring of traffic behavior.

6. Traffic Monitoring & Enforcement

- Real-time monitoring of call detail records (CDRs).
- Detection of unusual call patterns and high-risk destinations.
- Immediate suspension or termination of violating accounts.
- Maintenance of logs for audit and traceback purposes.

7. Traceback & Cooperation

DEPTH ROUTE LLC fully cooperates with traceback requests from USTelecom and other authorities.

The company maintains accurate records and responds promptly to regulatory inquiries.

8. Regulatory Compliance

The company complies with FCC rules, TCPA regulations, and industry standards to prevent illegal robocalls.

All operations are aligned with Robocall Mitigation Database (RMD) requirements.

9. Certification

I certify that the information provided in this Robocall Mitigation Plan is accurate, complete, and reflects the current operational practices of DEPTH ROUTE LLC.
