

Robocall Mitigation Program Description

(SkySwitch Partner - Voice Service Provider)

Company Name: Amardas LLC

Company Overview: Amardas LLC operates as a Voice Service Provider utilizing the SkySwitch services as a partner. We have no independent service that we provide. Currently we are only using SkySwitch platform called 'Corenexa' for our business use only. We don't have any other customers on this particular platform that are managed by us.

Network Role: As a SkySwitch partner, Amardas LLC functions as a reseller/retail provider. We do not directly manage underlying switching infrastructure but rely on SkySwitch's hosted softswitch and upstream carriers.

STIR/SHAKEN Implementation: Calls originating on our network are authenticated using STIR/SHAKEN protocols through our upstream provider uses. (SkySwitch and its carrier partners).

As a SkySwitch partner, we rely on SkySwitch and its underlying carriers for additional robocall mitigation, analytics, and network-level protections.
