

# Robocall Mitigation Plan

**World Atlantus LLC**

OCN: 181M

FRN: 0038039350

499 Filer ID: 838710

Company Name: World Atlantus LLC

Address: 54 Lolly In Centereach, New York 11720

Email: support@worldatlantus.com

Date: March 26, 2026

## Robocall Mitigation Plan Statement

This Robocall Mitigation Plan ("RMP") is submitted by **World Atlantus LLC** for inclusion in the FCC Robocall Mitigation Database pursuant to 47 CFR § 64.6300–64.6305.

World Atlantus LLC is a U.S.-based telecommunications service provider operating as a wholesale carrier-to-carrier voice provider. The company does not operate as a foreign service provider and does not provide services to end users or retail customers. World Atlantus LLC facilitates the exchange of wholesale domestic U.S. and international voice traffic exclusively between licensed telecommunications carriers and FCC 499 filers. The company does not originate robocall campaigns, autodialed traffic, or retail outbound traffic, and operates strictly within a wholesale interconnection framework.

## Disclosure of Prior Investigations or Actions

World Atlantus LLC certifies that, within the previous two years, there have been no formal investigations, enforcement actions, citations, or notices issued by the FCC or any regulatory authority related to illegal robocalls or caller ID spoofing. If any such action arises, World Atlantus LLC will update its Robocall Mitigation Database filing within ten (10) business days in accordance with FCC requirements.

## Traffic Origination Profile

World Atlantus LLC carries wholesale voice traffic only, sourced from:

- Authorized U.S. telecommunications carriers
- FCC-registered service providers (499 filers)
- Verified international carrier partners
- Traffic transmitted includes legitimate carrier-to-carrier voice communications.

The company:

✗ Does NOT originate robocalls

✗ Does NOT serve retail traffic

✗ Does NOT provide direct end-user services

All customers and partners are subject to strict \*KYC (Know Your Customer)\* and \*KYUP (Know Your Upstream Provider)\* validation.

## Gateway and Upstream Provider Compliance

World Atlantus LLC operates as a non-originating wholesale service provider and may handle both domestic and international traffic.

The company ensures that:

- All upstream providers are verified and contractually compliant
- Partners are listed in the FCC Robocall Mitigation Database (where applicable)
- Traffic is accepted only from trusted and vetted sources.

# **I. Advanced Network Monitoring**

World Atlantus LLC maintains advanced monitoring systems to detect and mitigate suspicious traffic patterns.

Monitoring includes:

- Real-time traffic analytics
- Detection of invalid or spoofed Caller ID
- Identification of abnormal call patterns (short duration, high burst traffic)
- Automated blocking and alerting mechanisms
- Suspicious traffic is immediately flagged and investigated.

## **II. Existing Robocall Mitigation Measures**

### **Service Limitations**

World Atlantus LLC strictly prohibits:

- Outbound-only call center traffic
- High-risk traffic profiles
- Any form of illegal robocalling
- Only balanced, compliant wholesale traffic is allowed.

### **Caller ID Authentication and Restrictions**

Customers may present only authorized and verified numbers

- Ownership and usage rights are validated before activation

### **Do-Not-Originate (DNO) Protection**

The company blocks traffic involving:

- FCC DNO-listed numbers
- Government and emergency numbers
- Unallocated or invalid number ranges

### **Know Your Customer (KYC) Controls**

World Atlantus LLC implements strict onboarding controls aligned with FCC expectations

Customers must provide:

- Business registration verification
- FCC 499 Filer status (where applicable)
- Service use declaration
- Website/domain validation
- Identity and ownership documentation

Upstream providers must provide:

- Robocall mitigation certifications
- Compliance assurances
- Valid business credentials

### **Verification and Agreements**

All customers must sign agreements confirming:

- Compliance with robocall mitigation rules
- Lawful usage of telecom services
- Responsibility for downstream traffic

### **Traceback Cooperation**

World Atlantus LLC fully cooperates with traceback efforts, including those initiated by the USTelecom Industry Traceback Group (ITG).

The company commits to:

- Respond within 24 hours (commercially reasonable)
- Provide CDRs and routing data
- Investigate and take corrective action
- Suspend or terminate non-compliant customers

Records are retained for a minimum of two (2) years.

### **III. STIR/SHAKEN Implementation Status**

World Atlantus LLC operates as a non-originating wholesale provider.

- The company does not directly originate end-user calls.
- STIR/SHAKEN attestation is applied by originating carriers.

For traffic where STIR/SHAKEN is not applicable:

- Analytics-based mitigation is applied
- Caller ID validation is enforced
- Suspicious traffic is blocked

### **IV. Ongoing Monitoring and Improvements**

World Atlantus LLC continuously enhances its mitigation program through:

- Traffic analytics improvements
- Updates to blocking databases
- Customer and partner audits
- Alignment with industry best practices

### **V. Regulatory Compliance and Updates**

World Atlantus LLC complies with all applicable FCC robocall mitigation requirements and commits to:

- Maintaining accurate RMD filings
- Updating the plan within 10 business days of material changes
- Annual certification by March 1

### **Certification**

I, Usman Butt, Director of World Atlantus LLC, certify under penalty of perjury that the information contained in this Robocall Mitigation Plan is true, accurate, and complete.

World Atlantus LLC has implemented reasonable and effective measures to prevent illegal robocalls and remains committed to full compliance with FCC regulations.

**Usman Butt**

President

World Atlantus LLC
