

Robocall Mitigation Program Description

Company Name: Paygomobile, LLC

Role: Non-Gateway Intermediate Provider

Network Description:

Paygomobile, LLC operates as a non-gateway intermediate provider. The company receives SIP traffic from upstream provider 46 Labs and routes traffic via SIP to SignalWire for downstream delivery, including international termination via Digicel. The company does not originate calls and does not assign caller ID.

Robocall Mitigation Procedures:

- Traffic accepted only from known upstream provider (46 Labs)
- Upstream provider relationships are vetted prior to acceptance
- Caller ID spoofing is prohibited
- Suspicious call patterns and abnormal traffic spikes are monitored
- Known invalid or illegal CLI ranges may be blocked
- The company does not generate robocall campaigns
- The company does not provide retail dialing services

Traceback Commitment:

Paygomobile, LLC commits to responding fully within 24 hours to traceback requests from the FCC, law enforcement, and the Industry Traceback Group, and will cooperate in investigating and stopping illegal robocall traffic.

STIR/SHAKEN:

Paygomobile, LLC does not implement STIR/SHAKEN and relies on upstream and downstream providers for authentication.
