

Fastnet Mobile, Inc.

Robocall Mitigation Plan

The following policies apply to all customers and prospective customers of Fastnet Mobile, Inc., for our Robocall Mitigation Plan to avoid originating illegal robocall traffic from our network:

1. **CONTRACT REQUIREMENT:** Our agreements with customers clearly prohibit passing illegal robocalls through any of our activated mobile services (voice, text, and internet data). Customers who violate these rules are subject to immediate termination of service without notification. If Fastnet Mobile believes illegal traffic has been passed through its network, the customer sending such traffic forfeits confidentiality; all data will be shared with industry partners and law enforcement as required by regulatory bodies.
2. **CUSTOMER DISCLOSURES AND CONFIRMATION:** All customers are required to disclose certain information, e.g., individual name or business and physical location, and contact personnel. We try our best to obtain the appropriate information before activation of cellular service.
3. **MONITORING:** Fastnet Mobile responds immediately to any abuse of the network usage, which includes spamming, robocalling, and other illegal uses. We immediately terminate the service on any abuse of the system.
4. **NOTIFICATION:** Fastnet Mobile publishes on its website this Robocall Mitigation Plan and notifies all customers of such policy at the start of service activations.
5. **LAW ENFORCEMENT COOPERATION:** Fastnet mobile cooperates fully with investigative authorities for any violation, abuse of service, and or any nature of unlawful activities.
