

Robocall Mitigation Program Description

Filing Entity: Victor Siritt

FCC Registration Number (FRN): 0038445086

Business Address: AV MORAN BLOQUE 11 PISO 03 APT 08 URB QUEBRADITA II,
DC 1020 CARACAS, Venezuela

Date: May 20, 2026

1. Overview

Victor Siritt is a foreign-based voice service provider operating from Venezuela. This document describes the robocall mitigation program implemented to prevent the origination and transmission of illegal robocalls and caller ID spoofing on our network, consistent with 47 CFR SS 64.6305(a).

2. STIR/SHAKEN Implementation Status

As a foreign-based voice service provider without a point of presence in the United States, Victor Siritt has not implemented the STIR/SHAKEN authentication framework. We operate exclusively as an originating provider outside of US jurisdiction and route traffic through US-based terminating carriers that are responsible for STIR/SHAKEN attestation.

3. Robocall Mitigation Measures

Notwithstanding the absence of STIR/SHAKEN implementation, Victor Siritt has adopted the following reasonable steps to avoid originating illegal robocall traffic:

- a) Know Your Customer (KYC): We conduct due diligence on all customers and business partners prior to providing voice services, including verifying identity, business purpose, and intended use of service.
- b) Traffic Monitoring: We monitor call traffic patterns in real time to identify anomalies such as unusually high call volumes, abnormal Answer Seizure Ratios (ASR), or short Average Call Durations (ACD) that may indicate illegal robocall activity.
- c) Caller ID Verification: We only allow caller IDs that are verifiably associated with our customers or their authorized numbers. We do not permit the use of spoofed, falsified, or unverifiable caller IDs.
- d) Contractual Prohibitions: All service agreements with customers expressly prohibit the use of our services for illegal robocalling, caller ID spoofing, or any activity in violation of the Telephone Consumer Protection Act (TCPA) or applicable FCC regulations.
- e) Traceback Cooperation: We commit to responding fully and within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium (USTelecom ITG).
- f) Immediate Action on Violations: Upon identification of any customer engaging in illegal robocall activity, we will immediately suspend or terminate service to that customer.

4. Contact for Robocall Mitigation Issues

For any issues related to robocall mitigation, traceback requests, or compliance matters, please contact:
