

ROBOCALL MITIGATION PROGRAM

Accurate Networks, LLC, FRN: 0025413733, currently has a total of six (6) Voice over IP telephone network customers. Additionally, we resell said VOIP services purchased from SkySwitch, under BCM One. We have no network of our own which initiates, maintains, nor terminates neither SIP nor IP networks or calls. We have no control over any robocall mitigation nor settings as SkySwitch/BCM One handle mitigation on their end.

Thank you,

Joy Pitman
President/CEO
Accurate Networks, LLC
