

ROBOCALL MITIGATION PROGRAM DESCRIPTION

Company Name: SIP-TERMINATOR LLC

The company is a voice service provider and has fully implemented the STIR/SHAKEN caller ID authentication framework across its entire network. All calls originated on the company's network are authenticated in compliance with 47 CFR § 64.6301.

Robocall Mitigation Program

1. STIR/SHAKEN Implementation

The company has fully implemented the STIR/SHAKEN authentication framework throughout its network and authenticates all originated calls in accordance with applicable FCC requirements.

2. Customer Verification

The company performs reasonable due diligence to verify the identity of customers prior to providing voice services. Verification may include business registration review, contact validation, and assessment of intended service usage.

3. Monitoring and Detection

The company monitors network traffic for suspicious calling patterns, caller ID spoofing, excessive call volumes, and other indicators of potentially illegal robocall activity.

4. Mitigation Actions

The company investigates suspicious traffic and may take appropriate action, including call blocking, customer notification, suspension of service, or account termination when warranted.

5. Traceback Cooperation

The company commits to responding fully and within 24 hours to all traceback requests from the FCC, law enforcement agencies, and the registered industry traceback consortium. The company cooperates fully in investigations relating to illegal robocalls.

6. Record Retention

The company maintains records necessary to support traceback investigations, customer verification procedures, and compliance activities.

7. Ongoing Compliance

The company periodically reviews and updates its robocall mitigation practices to ensure continued compliance with FCC regulations and industry standards.

Principals, Affiliates, Subsidiaries, and Parent Companies

Principal: Samuel Dahan, Director

Affiliates: None
