

1. Introduction

Talkative LLC ("the Company") has implemented a comprehensive robocall mitigation program designed to identify and block illegal robocall traffic. This Robocall Mitigation Plan outlines the reasonable steps the Company takes to avoid transmitting or facilitating illegal robocall traffic, in compliance with FCC regulations.

2. STIR/SHAKEN Implementation [Caller ID Authentication]

The Company has fully implemented the STIR/SHAKEN call authentication on its IP network. The Company works diligently to mitigate all illegal robocalls.

3. Robocall Mitigation Measures

The Company implements the following robocall mitigation measures:

3.A. Detection System

The Company commits that all the voice traffic is subject to a robocall mitigation program. Talkative LLC will only accept traffic for termination from companies that are in the Robocall Mitigation Database.

3.B. Traceback Response

The Company commits to fully respond to all traceback requests from the FCC, law enforcement, and the industry traceback consortium within 24 hours of receipt of such request, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls.

3.C. Know Your Customer

Talkative LLC includes within its agreement's terms designed to prevent new customers or upstream providers from originating illegal calls. These provisions are also being included in contract renewals.

Talkative LLC requires its customers to fill in and sign a Know-Your-Customer Form where customers provide information about the nature of their traffic and confirm that they do not originate any fraudulent calls. This due diligence on all customers before provisioning service is designed to mitigate illegal robocalls and provides the following details: - Verification of business identity and legitimacy; - FCC registration, licensing details, industry traceback status; - Review of intended use of services; - Information regarding automated dialing/robocall/telemarketing uses; - Contractual prohibitions against illegal robocalling.

3.D. Contractual Prohibitions

The Company's terms of service explicitly prohibit customers from: - Originating illegal robocalls
- Spoofing caller ID with intent to defraud - Transmitting calls that violate the Telephone Consumer Protection Act (TCPA) - Using the service for any unlawful purpose.

3.E. Traffic Monitoring

The Company actively monitors traffic patterns for anomalies that may indicate illegal robocall campaigns, including:

- Unusual call volume spikes
- High short duration call rates
- Patterns consistent with robocall behavior
- AI-driven behavioral analysis.

3.F. Enforcement Actions

Upon identification of suspicious or illegal robocall traffic, the Company following steps:

- Immediately block the offending traffic
- Terminate service to customers originating illegal calls
- Report violations to appropriate authorities
- Cooperate with law enforcement investigations

4. Certification

I certify that Talkative LLC. has implemented the robocall mitigation measures described in this plan and is committed to preventing illegal robocalls from originating on its network.

5. The Company commits to update its Robocall Mitigation Database filing within 10 (ten) business days of any material change to the information contained herein.
