Subject: Robo Call Mitigation Statement

We are a mobile network operator based in Grenada. All voice traffic generated on our network are generated from actual end users using mobile phones. There are no robo call systems connected to our network.

Our network is monitored 24 hours a day for suspicious traffic and hack attempts. Any abnormal traffic to and from our network is promptly investigated.

Sincerely,

A handwritten signature in black ink that reads 'Dan George'. The signature is written in a cursive, flowing style.

.....
Mr. Dave George, President
