

DFWVoIP LLC

FRN: 0038800983

DFWVoIP LLC is a VoIP service provider. We have implemented the **STIR/SHAKEN framework** on the IP portions of our network. For calls that cannot be signed with STIR/SHAKEN, we apply the following robocall mitigation measures:

- **Know Your Customer (KYC):** We verify the identify and legitimacy of all customers before providing outbound calling services and require contractual compliance with FCC rules.
- **Traffic Monitoring:** We monitor call traffic patterns and use analytic tools to identify and investigate suspicious robocall activity.
- **Blocking & Enforcement:** We block unlawful robocalls, respond to traceback requests from the Industry Traceback Group, and suspend or terminate service for customers engaged in illegal robocalling.

We cooperate fully with traceback investigations and regulatory enforcement.

Robocall Mitigation Contact:

Name: Don Allen

Title: CFO
