

ROBOCALL MITIGATION PLAN
NYMBLIX (PRIVATE) LIMITED
FRN: 0038983862
Date: 7 October 2026

1. Company overview

NYMBLIX (PRIVATE) LIMITED is a Pakistan-registered company operating an Asterisk-based outbound call-center dialer (Nymblix) hosted at SIP IP 86.48.24.63. We originate business voice traffic and terminate USA calls through licensed wholesale carriers. We do not resell illegal robocall traffic.

2. Role in the call chain

We act as an originating voice service provider without a STIR/SHAKEN implementation obligation. U.S. termination is provided by downstream wholesale carriers that perform call authentication where applicable.

3. Principals / ownership

Principal: Khuzaifa Munir — Director / CEO

Affiliates: None

Subsidiaries: None

Parent company: None

4. Know-your-customer / traffic controls

- Traffic is only for NYMBLIX and authorized clients under contract.
- We require documented use-case and authorized calling identity.
- We prohibit illegal robocalls and spoofing of numbers we do not control.
- Outbound Caller ID is limited to numbers we own or are authorized to use (e.g. DIDs from Telnyx or other reputable providers).

5. Consent and compliance

- Campaigns are for lawful outbound business calling (including TCPA where applicable for U.S. called parties).
- We maintain Do-Not-Call / opt-out handling and honor stop requests.

6. Analytics and monitoring

- We monitor ASR, short-call ratios, complaints, and unusual CPS spikes.
- Suspicious traffic is suspended pending investigation.
- CDRs are retained to support traceback and audits.

7. Traceback commitment

We commit to respond fully within 24 hours to traceback requests from the Industry Traceback Group, the FCC, law enforcement, and our carriers, and to investigate and stop illegal traffic.

8. Upstream / downstream providers

We interconnect only with known wholesale carriers after commercial onboarding. We do not accept anonymous upstream traffic.

9. STIR/SHAKEN

We have not implemented STIR/SHAKEN on our network because we are a foreign voice service provider without control of U.S. IP infrastructure / SPC token. Downstream U.S. carriers authenticate where applicable. See 47 CFR §§ 64.6301 and 64.6305.

10. Point of contact (robocall mitigation)
