1. STIR/SHAKEN Implementation Status

BS TELECOM LLC is currently in the process of implementing STIR/SHAKEN and is actively working with industry partners and service providers to complete deployment in accordance with applicable FCC requirements.

The company expects STIR/SHAKEN implementation to be completed as part of its ongoing network compliance and authentication framework. Until implementation is fully completed, BS TELECOM LLC relies on robust robocall mitigation procedures, customer verification processes, traffic monitoring, traceback cooperation, and other compliance measures described in this plan to prevent the origination and transmission of illegal robocalls.

BS TELECOM LLC will maintain compliance with all applicable FCC robocall mitigation obligations and will update its policies and procedures as STIR/SHAKEN deployment progresses.

2. Business Model & Network Role

BS TELECOM LLC participates in the telecommunications ecosystem in two primary capacities:

Wholesale Services

Providing voice termination and interconnection services to:

Carrier partners

Resellers

Telecommunications providers

Direct Customer Services

Providing telecommunications services directly to retail and business customers originating traffic through the company's network and platform.

Estimated Traffic Distribution

3. Robocall Mitigation Program

BS TELECOM LLC takes affirmative and effective measures to prevent its network from being used to originate illegal robocalls.

3.1 Know Your Customer (KYC) Procedures

Identity verification of all customers prior to service activation.

Collection of valid government identification.

Collection of business registration records.

Collection of tax identification documentation.

Verification of authorized representatives.

Risk-based customer onboarding and screening.

Enhanced due diligence for high-risk industries including:

Debt recovery

Lead generation

Healthcare communications

Political outreach

3.2 Traffic Monitoring & Analytics

BS TELECOM LLC continuously monitors inbound and outbound traffic using automated and manual review processes.

Monitoring includes:

High-volume traffic spikes

Short-duration call activity

Sequential dialing patterns

Auto-dialing behavior

Completion-rate anomalies

Other suspicious traffic indicators

Automated alerts are generated whenever unusual activity is detected.

3.3 Call Blocking & Filtering

The company utilizes automated fraud detection and filtering systems to:

Block suspicious traffic;

Prevent spoofed calling activity;

Restrict calls with suspicious caller ID information; and

Act upon STIR/SHAKEN verification warnings.

Traffic may be blocked, rejected, isolated, or investigated when warranted.

3.4 Do-Not-Originate (DNO) Protection

BS TELECOM LLC maintains protections against caller ID spoofing and invalid number usage through:

Industry-standard Do-Not-Originate (DNO) lists;

Internal risk databases; and

Blocking of invalid, unallocated, or spoofed telephone numbers.

3.5 Traceback Cooperation

BS TELECOM LLC fully cooperates with traceback efforts and industry partners, including the U.S. Telecom Industry Traceback Group.

Traceback Procedures

Responses to traceback requests within 24 hours or within the applicable regulatory timeframe.

Investigation of the traffic source and associated customer account.

Retention of traceback records for a minimum of two (2) years.

3.6 Upstream Provider Compliance

BS TELECOM LLC works only with reputable and compliant upstream providers. Preference is given to carriers that:

Have implemented STIR/SHAKEN; and

Maintain strong robocall mitigation and compliance programs.

3.7 Downstream Customer Enforcement & TCPA Controls

All customers must comply with:

Telephone Consumer Protection Act (TCPA)

Telemarketing Sales Rule (TSR)

Federal and State Do-Not-Call requirements

Company Terms of Service

Acceptable Use Policy

Additional controls include:

Consent documentation requirements for outbound campaigns when applicable.

Continuous monitoring of customer traffic.

Immediate investigation of suspicious activity.

Immediate suspension or permanent termination for policy violations.

3.8 Record Retention

BS TELECOM LLC maintains:

Call Detail Records (CDRs)

Traffic monitoring logs

Customer compliance records

Records are retained for a minimum of two (2) years and are available for regulatory or traceback purposes upon request.

3.9 Regulatory Compliance

BS TELECOM LLC complies with all applicable regulations related to robocall mitigation, including:

FCC Robocall Mitigation Requirements

Telephone Consumer Protection Act (TCPA)

Telemarketing Sales Rule (TSR)

Federal and State Do-Not-Call Requirements

Applicable STIR/SHAKEN Obligations

4. Network Security & Traffic Controls

To maintain network integrity and minimize abuse, BS TELECOM LLC employs multiple monitoring, fraud detection, and enforcement mechanisms.

Where policy violations are identified:

Services may be suspended immediately;

Traffic may be blocked or restricted; and

Accounts may be permanently terminated depending on the severity of the violation.

5. Management & Public Presence

BS TELECOM LLC is a privately owned telecommunications company.

Basit Hussain serves as the Owner and primary point of contact for:
Compliance

Operations

Carrier Relations

Regulatory Matters

Management remains directly accessible and actively involved in day-to-day operations and compliance oversight.

The company continues to expand its public business presence and professional profiles across relevant industry platforms. Government-issued identification of the owner has been provided where required to support carrier due diligence and compliance reviews.
