ROBOCALL MITIGATION DATABASE FILING

Robocall Mitigation Plan

Tanveer Telecom LLC · Interconnected VoIP Voice Service Provider · 47 CFR § 64.6305

FRN	EFFECTIVE	OWNER	STATUS
0039202072	November 19, 2026	Tanveer Javaid, CEO	Final

1. Our Commitment

Tanveer Telecom LLC (the "Company") takes reasonable steps to avoid originating illegal robocalls. This plan applies to all calls the Company originates, and to all staff and vendors who support that traffic. It is filed with the FCC Robocall Mitigation Database.

01
Know Your Customer
Verify identity, ownership and intended use before service.

02
Vet Providers
Exchange traffic only with RMD-listed providers.

03
Monitor & Block
Analyze traffic; block or suspend suspect calls.

04
Trace in 24 Hours
Answer every traceback request within 24 hours.

2. STIR/SHAKEN Status

The Company is implementing STIR/SHAKEN and will certify its actual status (full, partial or none) in the database.

Implementation step	Status	Target
Obtain OCN and Service Provider Code token	In-process	Nov 25, 2026
Obtain certificate from approved STI-CA	In-process	Nov 28, 2026

Deploy signing and verification services	**In-process**	Nov 30, 2026
Sign calls with A, B or C attestation	**In-Process**	Nov 20, 2026

Attestation: A = customer and number verified; B = customer verified only; C = origin not authenticated.

3. Reasonable Steps

Control	What we do
Know your customer	Collect legal name, address, ownership and intended use; screen against enforcement and sanctions lists; require an acceptable-use agreement; verify caller ID number authority.
Provider vetting	Accept traffic only from providers listed in the database; require contractual mitigation and traceback cooperation.
Analytics	Monitor volume, call duration and invalid numbers. Tools used Peeredge by 46 Labs
Enforcement	Investigate flags within 1 business day; suspend, block or terminate violators; escalate to authorities.

4. Traceback Cooperation

24h

The Company will respond fully within 24 hours to traceback requests from the FCC, law enforcement and the industry traceback consortium, and will cooperate in stopping illegal robocallers. Contacts: support@tanveertelecom.com, tanveer@tanveertelecom.com.

5. Governance and Filing

Owner	Robocall Mitigation Officer oversees this plan and the database certification.
Training	All relevant staff at hire and annually.
Records	KYC, monitoring and traceback records kept 2 years.

Review	At least annually, and when rules or STIR/SHAKEN status change.
Filing	Update the database within 10 business days of any change; re-certify annually. Disclose any robocall-related enforcement action in the past two years: None.

6. Approval
